Title: Plasmodium falciparum parasitaemia and malaria in pregnant women at first clinic visit in the mount Cameroon Area

Version: 4 Date: 19 June 2015

Reviewer: Stephanie K. Yanow

Reviewer's report:

The authors have sufficiently addressed my comments in this revised manuscript.

However, please note the following:

Since Table 3 was removed, Table 4 should be renamed Table 3. Also, some of the numbers in the tables were misaligned.

There are several instances where the punctuation is missing in the manuscript text. I recommend that the grammar is reviewed.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
