Reviewer's report

Title: Time Series Analysis of Reported Cases of Hand, Foot, and Mouth Disease from 2010 to 2013 in Wuhan, China

Version: 2 Date: 20 July 2015

Reviewer: Junni Wei

Reviewer's report:

There are still some minor revision to be considered.

1. In introduction section, it is confusing for the sentence “A comparison of different provinces in China may minimize the potential confounding effects of socioeconomic inequality and demographic differences…”. Different provinces basically exist these differences in common sense.

2. The spelling in result sections should be consistent, such as Figs. and Fig..

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
