Reviewer's report

Title: Incidence and characteristics of invasive fungal diseases in allogeneic hematopoietic stem cell transplant recipients: a retrospective cohort study

Version: 0 Date: 25 Oct 2015

Reviewer: Tran-Anh Le

Reviewer's report:

The laboratory procedures for the diagnosis of fungal infection must be clearly stated in the paper: who were screened for invasive fungal disease and which methods were applied in the detection and speciation of fungi. The method to diagnose Pneumocystis jirovecii was not included in reference 9 and must be stated.

Are the methods appropriate and well described?

If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?

If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?

If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?

If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
