Introduction

- Please divide the introduction into several paragraph in which each paragraph presents one topic.

Line 38: Reporting should be performed within 24 hours towards …..

- I think you may say: Fast or emergency reporting should be performed within 24 hours towards ….

Methods:

- Please tell reader more about participants characteristics.

- What was the participation rate in the study?

- What are participants, locations of work? Are they from all part of the country?

- How many family doctors work in the study area?

- How did you calculate sample size and what was assumption for that?

Line 29: The following questions were asked:……

- These are questions that were asked from physicians or objectives of the study?

Line 46: The survey is presented in Appendix II.

- Survey questionnaire is ….

- Please clarify the used software and statistical tests for analysis.
Results:
- Table 2 is vague. How you evaluate relationship between scoring of statements and gender by regression? What kind of regression model did you use? What is independent variable? Please clarify the statistical methods for this table.

- Also Table 3 is vague. How you evaluate relationship between scoring of statements and other qualitative variables by regression? What is independent variable? Please clarify the statistical methods for this table.

- Please add description about each tables in the below of the tables.

- Result section isn't well structured and satisfying.

Discussion:
- Discussion may need revision after revising the results. Now I am not satisfied by analysis method. So I am not sure about the results interpretation in the discussion section.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Acceptable
Declaration of competing interests

Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I don’t have any competing of interest.
