Reviewer’s report

Title: Case Report: A fatal case of disseminated adenovirus infection in a non-transplant adult haematology patient

Version: 1 Date: 13 Nov 2017

Reviewer: Maciej Przybylski

Reviewer’s report:

I have read revised manuscript with great pleasure. It is informative, and written with clarity. Thus I recommend it to be published in BMC.

I have one minor comment: I would ask Authors to change "serotype C1" to "type C1" at verse 112, which term is more appropriate (as it was mentioned by Reviewer 3).

Are the methods appropriate and well described? If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls? If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown? If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review? If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
