Title: Rubella seroprevalence among pregnant women in Beijing, China

Version: 0 Date: 20 Nov 2017

Reviewer: Muhammad Sohail Afzal

Reviewer's report:

Dear Editor,

The manuscript entitled "Rubella seroprevalence among Chinese pregnant women" by Meng et al. showed the prevalence of Rubella infection in pregnant women in Beijing. The study was carried out from June 2016 through March 2017, and included 324 study participants. The manuscript highlighted the need of vaccination in Chinese women at child bearing age because 16.7% of pregnant women were susceptible to rubella. Although the study covers a very good topic and relevant to the public health, however there are some observations;

1. Background is too short, add some more data to cover the topic.

2. Manuscript should be rechecked for English language corrections and typing errors.

   Hence I suggested minor revision of the manuscript.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
