Reviewer’s report

Version: 2 Date: 26 May 2019

Reviewer: Wondwossen Abebe

Reviewer's report:

I appreciate your commitment to come up with second version of the manuscript but I still have comments for improvements before its possible publication.

Language should be carefully revised and also carefully revise the typos

The conclusion in abstract is too long. You can remove "The data analysis has provided important information on the antimicrobial resistance trends over the past six years." and "Infection prevention and control measures must be implemented and monitored in hospitals and in communities to reduce these levels of drug resistant infections."

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
