Reviewer’s report

Title: Pneumonia due to Pandoraea Apista after Evacuation of Traumatic Intracranial Hematomas: A case report and literature review

Version: 0 Date: 16 Jun 2019

Reviewer: Tanja Pressler

Reviewer’s report:

The paper "Pneumonia due to Pandoraea Apista after Evacuation of Traumatic Intracranial Hematomas: A case report and literature review" is very interesting and very well written case description as well as a very comprehensive and valuable overview of this very rare and underdiagnosed microorganism.

Identification of this seldom microorganism is difficult, and authors are giving us very useful overview and advices regarding diagnostic challenges.

Virulence mechanisms and antibiotics susceptibility are thoroughly reviewed

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript
