Reviewer’s report

Title: Blackfly fever and dermatitis caused by Simulium kiritshenki: A human case report in Iran

Version: 1 Date: 02 Apr 2020

Reviewer: Andreas Krüger

Reviewer's report:

To my opinion all points have been clarified. Yet there are still the following corrections do be made.

1. Background, Line 5: 11-segmented antennae (not 11 segmented as this is misleading)

2. Background, Line 10: To my knowledge the correct name is Onchocerca gutturosa, not gutterosa.

3. Background, Line 16: numerous blackly bites (not blackly)

4. Page 6, line 11: there is a formatting issue with letter sizes in "insecticides such as tempos"

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
