Reviewer’s report

Title: Peritonitis Secondary to Hemorrhagic Fever with Renal Syndrome: a case report in GuangZhou China

Version: 1 Date: 06 Dec 2019

Reviewer: Dong-Min Kim

Reviewer's report:

Peritonitis Secondary to Hemorrhagic Fever with Renal Syndrome: a case report in GuangZhou China

Manuscript Number: INFD-D-19-01479

The authors have addressed nearly all the comments and suggestions which had made in the first review. A more detailed description is now provided. Introduction has been provided with classification of Hantavirus. Authors have changed the dates of events and also mentioned titers of antibodies. Authors edited previously mentioned "explorative laparotomy" into "explorative laparoscopy"

As per recommendation, tabular comparison has also been added. Discussion is now sufficient to conclude the results.

Just minor revision

Line 26 in Discussion and Conclusion

the diagnose need to be changed into the diagnosis

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes
Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
