Reviewer’s report

**Title:** Diagnostic imaging capabilities of the Ocelot -Optical Coherence Tomography System, ex-vivo evaluation and clinical relevance

**Version:** 6  **Date:** 15 July 2015

**Reviewer:** Huazhu Fu

**Reviewer’s report:**

This paper compared the diagnostic information obtained by and OCT systems by using the ex-vivo preparations. Overall, the research topic is interesting and experimental results demonstrates equivalence of image acquisition and consistent physician interpretation of images acquired by the Ocelot and the Dragonfly OCT systems. This paper is of a quality suitable for publication.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.
