Reviewer’s report:

This paper presents a case report of hyperglycemic nonketotic chorea with rapid radiological resolution. The paper is well structured and written. The paper should be made some revisions before publications.

First, it is better to compare the results with normal controls. Secondly, we cannot clear see the difference on the figures to illustrate the findings in the manuscript. It is suggested to label the significant changed regions on the figures.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
