Reviewer’s report

Title: Relation between carotid vulnerable plaques and peripheral leukocyte: A case-control study of comparison utilizing multi-parametric CEUS

Version: 1 Date: 12 Aug 2019

Reviewer: Yonggui Yang

Reviewer's report:

This study evaluates carotid vulnerable plaques using contrast-enhanced ultrasound (CEUS) and explores the relationship between vulnerable plaques and leukocytes.

The quality of Article is better, It's Clarity of Presentation Clarity of Figures and Tables. The research content has certain innovation, and has the feasibility. It's Suitability for Journal. The suggestion is accept.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript
