Version: 0 Date: 13 Sep 2019

Reviewer: Junaid Ahmed

Reviewer's report:

1. The subheadings in the abstract section are shown as a part of the previous sentences and not as a separate subheading.

2. Grammatical errors and improper spacing in almost every sentence throughout the manuscript in all sections.

3. Was 'age' the only inclusion criteria?[under 'study design']

4. Result analysis is very brief and abrupt. Needs to be expanded.

4. Importance of your study and its implication in assessing carotid viscoelasticity needs to be explained in detail.
