Reviewer’s report

Title: Imaging study of coronal structural matching of the distal radius in normal adults

Version: 0 Date: 22 Dec 2019

Reviewer: Mohamed Elbanan

Reviewer's report:

The manuscript is well written. I have the following minor comments:
1- The manufacturer data for Mimics 20.0 is missing.
2- The study used thin slice CT. However, technical parameters of scan, including but not limited to: slice thickness, were not included.
3- How are the results obtained from the study comparable to data obtained from plain radiographs as mentioned in the manuscript.

Are the methods appropriate and well described? 
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls? 
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown? 
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review? 
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English
