Reviewer's report

Title: Validation study of candidate single nucleotide polymorphisms associated with left ventricular hypertrophy in the Korean population

Version: 3
Date: 30 December 2014
Reviewer: Grzegorz Placha

Reviewer's report:

Major Compulsory revisions:
1) Figure 1 contains incorrect p-values (from the previous of the manuscript)
2) Still it is not clear, if the p-values were corrected for multiple comparisons or reader has to use cut off value of <0.0056 for significance.

Minor essential revisions:
none

Discretionary Changes:
none

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
