Title: Novel FOXL2 mutations in two Chinese families with blepharophimosis-ptosis-epicanthus inversus syndrome

Version: 2  Date: 23 July 2015

Reviewer: Laura Crisponi

Reviewer's report:

- Minor Essential Revisions
  1. the three-letter amino acid code should be used also for the other mutation throughout the text (p.A226_A230del).
  2. Lines 176-181, please revise the sentence, it is not flowing.
  3. Lines 100-101, the symbols in the brackets are not correct. Please change them accordingly.
  4. Line 105, please change “…all participated individuals..” with “…all participants…”

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
