Title: Cardiac Manifestations of PRKAG2 Mutation

Version: 0 Date: 28 Jun 2017

Reviewer: Dhanya Lakshmi

Reviewer's report:

Please clarify the following points:

1. Age and sex of the patient
2. ECG findings in this patient
3. Can you describe the mutation in more detail?
4. Was the mutation identified a novel one or was it previously reported?
5. Was it confirmed later by Sanger sequencing?
6. Did anybody else in family have similar complaint?
7. Discussion looks more like a review of literature. Please compare the findings of your patient with the previous clinical cases which were reported. This would help us in understanding how this patient is different from others with proven mutation.

Are the methods appropriate and well described?
