Reviewer’s report

Title: Cardiac Manifestations of PRKAG2 Mutation

Version: 0 Date: 30 Oct 2017

Reviewer: Oscar Campuzano Larrea

Reviewer's report:

The manuscript is well-written.

The clinical assessment is proper and conclusions are according to the results identified.

Concerning genetic analysis, despite PRKAG2 seems to be the responsible, no other rare variants were identified in index case?

If yes, genetic segregation in relatives could be of interest in order to clarify the modification of phenotype.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
