Title: The impact of down-regulated SK3 expressions on Hirschsprung disease

Version: 1 Date: 02 Jan 2018

Reviewer: V.G. Shakkottai

Reviewer's report:

The authors have done all they can to address reviewer concerns. While there continue to be some limitations, including the lack of immunostaining confirmation of the reduction in SK3 channels, resource limitations should not hold up the publication of results that are interesting and valid in a population that has not previously been investigated. The authors should consider including the diagnosis for bowel resection in the control population.
