Reviewer’s report

Title: Rubinstein-Taybi 2 associated to novel EP300 mutations: deepening the clinical and genetic spectrum

Version: 3 Date: 07 Feb 2018

Reviewer: Cristina Gervasini

Reviewer's report:
The manuscript by Lopez and colleagues reports on eight patients with Rubinstein-Taybi presentation, found carriers of EP300 mutation. The requested revision has been followed. The discussion could be well-structured, but some added sentences make it better. Typos and minor inaccuracies should be amended again.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
Not relevant to this manuscript
