Reviewer’s report

Title: Clinical and molecular genetic risk determinants in adult long QT syndrome type 1 and 2 patients

Version: 2 Date: 02 Jan 2018

Reviewer: Kenshi Hayashi

Reviewer's report:

In this revised version of the manuscript, authors modified the content according to reviewer's comments. The revision has been done well, and I have no further points.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English
