Reviewer’s report

Title: Osteopontin promoter polymorphisms and risk of urolithiasis: a candidate gene association and meta-analysis study

Version: 1 Date: 25 Mar 2020

Reviewer: Surini Yusoff

Reviewer's report:

Dear authors,
This is a good study. I have no comment on the content. However, here are very few minor comments on the typo errors:
1. Page 12, Line 243: Figure to Figures
2. Page 24, Table 1: In column Genotype/Allele, Row 2: T/G or G/T?
3. Page 29, Table 4: In column Samples: The word "Samples" is suggested to add as "Total Number of Samples" or "Samples (N)" where N should be added in the footnote as the Total Number of Samples

Thank you.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
