Reviewer's report

Title: Kidney Injury Molecule-1 Expression in Human Kidney Transplants With Interstitial Fibrosis and Tubular Atrophy

Version: 2 Date: 7 November 2014

Reviewer: Harry van Goor

Reviewer's report:

This is a nice paper on KIM-1 expression in human kidney transplants. However, the paper largely confirms previous data implicating that there is no novelty in it.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
