Reviewer's report

**Title:** A Case report of Severe osteomalacia caused by Tubulointerstitial nephritis with Fanconi syndrome in asymptomatic primary biliary cirrhosis

**Version:** 5  **Date:** 27 July 2015

**Reviewer:** sheela nampoothiri

**Reviewer's report:**

1. Very well written paper with a valid message
2. There are repetition of same content in the case summary section and discussion which need to be shortened
3. initial background section is too long (Need to be reduced)
4. A correction is needed in line 193 as “lack of sun exposure’ instead of ‘sun exposure’

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests
