Reviewer’s report

Title: Low dose of mycophenolate mofetil is enough in desensitized kidney transplantation using rituximab

Version: 0 Date: 27 Oct 2015

Reviewer: Massimo Torreggiani

Reviewer’s report:

In this manuscript, Baek and Colleagues evaluated the safety of low dose of mycophenolate mofetil (MMF) in HLA-sensitized or AB0 incompatible living donor kidney transplantation. They found that a lower dose of MMF was effective in reducing infectious complications but acute rejection occurred at the same rate in all the three groups. Graft survival was not different between low and standard dose of MMF, as well as patients' survival.

This paper is interesting and could be published after an extensive revision of the English language.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
Not relevant to this manuscript

Quality of written English
Please indicate the quality of language in the manuscript:

Not suitable for publication unless extensively edited
Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
