Reviewer’s report

Title: Fluid Overload in the ICU: Evaluation and Management

Version: 0 Date: 02 Sep 2015

Reviewer: Preethi Yerram

Reviewer's report:

Overall, a good review. Please see suggestions below:

- Consider adding pictures of 'comet-tail images' in the thoracic ultrasound section
- Please mention if there are standard accepted 'average diameter measurements' of IVC that would suggest hypervolemia and normovolemia.
- There are scattered grammatical/spelling/punctuation errors throughout the manuscript, which need to be corrected.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Unable to assess

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
