Reviewer's report

Title: Malnutrition-inflammation is a risk factor for cerebral small vessel diseases and cognitive decline in peritoneal dialysis patients.

Version: 1 Date: 13 Oct 2017

Reviewer: Che-Yi Chou

Reviewer's report:

The authors accessed the association of malnutrition-inflammation and cerebral small vessel diseases (CSVD)/cognitive impairment in 72 chronic peritoneal dialysis (PD) patients of one hospital. The CSVD was determined using brain MRI images and the cognitive function was evaluated using the Chinese version of the MMSE and MoCA. All suggestions had been solved and I have no more questions. The findings are interesting and should be considered for publication.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
