Reviewer's report

Title: Immune thrombocytopenic purpura presenting in a patient after renal transplant for diabetic nephropathy.

Version: 1 Date: 16 Jan 2018

Reviewer: Roman Reindl-Schwaighofer

Reviewer's report:
I would only advise for some language corrections by a native speaker to make the text more readable. Beside that all comments have been addressed. I consider this case report as relevant for the transplant community as only few cases of ITP post kidney transplant have been reported to date.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
