Reviewer's report

Title: Angiotensin II Receptor Blockade is Associated with Preserved Muscle Strength in Chronic Hemodialysis Patients

Version: 0 Date: 28 Aug 2018

Reviewer: Hussein Alhawari

Reviewer's report:

Yu-Li Lin et al., presented a study that indicates a potentially protective effect of ARB on muscle strength in chronic HD patients.

The result of the study is very interesting and definitely further and larger studies on this topic are needed. Methodology is excellent. The authors conducted an excellent literature review. It needs some language correction before being published.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
