************

This article described a rare case of a huge benign fibrous histiocytoma arising from the renal capsule. Although this topic is interesting, I think some revisions are necessary before publication for the following reasons.

1. This article failed to make its novelty or scarcity of this case clear. The value of this article should be more expressed.

2. In order to increase the value of this article, it is recommended to add a table which summarizes previous case reports and this case.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
