Reviewer’s report

Title: Dasatinib-induced nephrotic syndrome in a patient with chronic myelogenous leukemia: a case report

Version: 0 Date: 01 Nov 2018

Reviewer: Michiko Shimada

Reviewer's report:

The authors presented a case of nephrotic syndrome caused by dasatinib. It is known that dasatinib often cause proteinuria. However, detailed mechanism remains unknown, and there are not many case reports with the findings of renal biopsy. Therefore, this case report would have a significant value for the readers.

The manuscript needs proofread for language corrections.

- Is there any relationship between endothelial damage and the deposition of the fibrils? Is it really just a coincidence?
- p6 line4 platelet count of 1,320,000/μL→Is it correct?
- Please indicate if there was any hematuria or abnormal urine casts.
- p8 line3 binds to the VEGF-2 receptor of cells→ Which kind of the cells do you mean here?
- p8 line4 the cell's function→ cellular function?
- p8 line14 The electron microscopy study of our case showed diffuse effacement of the foot process that was due to massive proteinuria. Does it make sense?
- p8 line 15 endothelia → endothelial
- Please use arrows or something to indicate swelling of the endothelial cells, and the fibrils in Fig1C and D.
- Please indicate original magnification in Fig1.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?
I declare that I have no competing interests.
