Reviewer's report

Title: Identification of the soluble form of tyrosine kinase receptor Axl as a potential biomarker for intracranial aneurysms rupture

Version: 1 Date: 27 June 2014

Reviewer: Jonatan Myrup Staalsø

Reviewer's report:

Discretionary revisions:
The language is still a bit rough at certain points, but everything is understandable. The discussion as been substantially improved - more to the point.

I do not have further comments.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
