Reviewer’s report

Title: The changes in clot microstructure in patients with ischaemic stroke and the effects of therapeutic intervention: a prospective observational study

Version: 3 Date: 22 January 2015

Reviewer: Yasuhiro Suzuki

Reviewer’s report:

This is a review on a revised paper entitled “The changes in clot microstructure in patients with ischaemic stroke and the effects of therapeutic intervention: a prospective observational study” by Stanford et al.

Authors should revise a mistake in the revision. I do not have any comments for the other points in the revision.

An Issue that needs to be addressed:

Minor Essential Revisions:

1) The line 4 of the legend for figure 2,
There are double “circle=1.73” given in parentheses. You should delete the former “circle=1.73”.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
