Title: Early Statin Use in Ischemic Stroke Patients Treated with Recanalization Therapy: Retrospective Observational Study

Version: 3  Date: 7 April 2015

Reviewer: Christine Kremer

Reviewer’s report:

All my major compulsory revisions have been addressed. The authors have even added statistical analyses. The number of limitations and bias has increased.

Some minor spelling mistakes.

Keep in mind that you limit the number of tables for clarity.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
