Reviewer's report

Title: A case report of misdiagnosed Murine typhus infected patient presented with multiple cerebral infarctions and hemorrhage

Version: 3 Date: 18 May 2015

Reviewer: naoufel kaabia

Reviewer's report:

I would like to thank authors to follow my advice to improve this paper. however, some minors mistakes persist and I invite them to correct:
1- line 66: revise the sentence "when he severe headache, fever and dizziness associated with nausea developed" there is no verb
2- line 73: you can change the sentence "intracranial infection" by encephalitis
3- line 82: there is space between A and repeated MRI
4- line 87: there is space between basis and of
5- line 107: symptoms instead of synptoms
6- line 117: I think the diagnosis is meningoencephalitis instead of encephalitis

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
