Reviewer’s report

Title: Post-operative re-bleeding in patients with hypertensive ICH is closely associated with the CT blend sign

Version: 0 Date: 08 Mar 2017

Reviewer: Marc Alain Babi

Reviewer's report:

Interesting review of recurrent post-operative hemorrhage associated with the presence of the blend sign.

Overall, the authors describe the presence of a radiographic sign (blend sign) and its association with risk of rebleeding (ICH).

This article is worth publishing however will need extensive revision:

1. I recommend working on the verbiage. Several sentences are hard to follow or do not make sense at all
2. Please expend on the clinical significance of the blend sign (on the basis of previously published studies), rate of hematoma expansion (generally)
3. Hematoma expension or growth carry the same meaning. Please use either terms.
4. Expend on the limitation of this study.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?

No
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

**Quality of written English**
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
