Reviewer’s report

Title: Neurogranin and Tau in Cerebrospinal Fluid and Plasma of Patients with Acute Ischemic Stroke

Version: 0 Date: 06 Apr 2017

Reviewer: Mie Kurata

Reviewer’s report:

The authors describe that Alzheimer's biomarker; neurogranin and Tau have a potential to be biomarkers of stroke. Their point of view is interesting but I have some questions to them.

1. What can we know from these biomarkers? How do you think to use these biomarkers in clinical setting? For example, plasma tau peaked on 7 days after stroke onset, it might too long to do something for patients.

2. Are there any control samples which are able to compare those biomarker levels against stroke patients?

3. As authors mentioned, there are several biomarkers which 'reflect' stroke severity or prognostic value. Did you measure any of them? If not, why not didn't do?

4.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I recommend additional statistical review

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
