Reviewer’s report

Title: Exercise prescription for patients with multiple sclerosis; Potential benefits and practical recommendations.

Version: 1 Date: 30 Mar 2017

Reviewer: Attilio Carraro

Reviewer's report:

The paper has been significantly improved and is not suitable for publication after some minor reviews.

I would suggest:

To add "narrative" before review at line 131;

To carefully check grammar, typing mistakes (there are still some mistakes in different parts of the manuscript) and punctuation;

Check also the punctuation at the on the sentences when you report citations. E.g. the correct way is … endurance exercise (1, 2-5).
