Reviewer’s report

Title: REPERFUSION THERAPY IN ACUTE ISCHEMIC STROKE: DAWN OF A NEW ERA?

Version: 0 Date: 18 Nov 2017

Reviewer: Benjamin Tan

Reviewer's report:

The authors present a comprehensive review and discussion of reperfusion therapy in acute ischemic stroke.

My only comment as follows:

1. As landmark DAWN trial had just been released (Nogueira RG, Jadhav A, Haussen DC, Bonafe A, Budzik RF, ... Jovin TG et al. Thrombectomy 6 to 24 hours after Stroke with Mismatch between Deficit and Infarct. NEJM November 11, 2017.), the authors should discuss this in more detail in their manuscript instead of the current preliminary results.
