Reviewer’s report

Title: Epidemiology of non-traumatic spinal cord injury in Uganda: a single center, prospective study with MRI evaluation

Version: 2 Date: 07 Sep 2018

Reviewer: Reviewer 2

Reviewer's report:

"REVISION ASSESSMENT FROM THE ACADEMIC PEER REVIEWER:

Has the author addressed your concerns sufficiently for you to now recommend the work as a technically sound contribution?

Yes

Reviewer comments: The overall quality of the manuscript has increased after the revisions. It reads better, the flow of idea and discussion has also improved. However, there is still a minor issue with the references.

In Vancouver Style, full name of the journal is abbreviated or shortened. This is missing in reference number 10,11,16,21,23 and 24. This should be corrected

Rest of the manuscript is now in good shape for final submission"

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review? 
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript

Quality of written English
Please indicate the quality of language in the manuscript:
