Reviewer’s report

Title: Pyramidal system involvement in progressive supranuclear palsy - a clinico-pathological correlation

Version: 3 Date: 19 Feb 2019

Reviewer: Kevin Bieniek

Reviewer’s report:

The authors did a commendable job addressing the Reviewers' concerns. No objections towards publication.

Some minor notes for consideration:

1) consider adding "Richardson's syndrome" to the keywords

2) the last paragraph of the Introduction still has the number 25 listed when elsewhere in the manuscript, the number of cases has been listed as 18

3) the last column of Table 2 lists PSP-SL as #19 when it should be #18

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:
