Reviewer’s report

Title: Multiple Cerebral Metastases and Metastatic Aneurysms in Patients with Left Atrial Myxoma: A Case Report

Version: 0 Date: 07 Jul 2019

Reviewer: adarsh Arava

Reviewer's report:

Dear author,

This is an interesting observation. The manuscript needs minor revisions. As it is diagnosed by a histopathologist, kindly include pathologist name in the author profile. For further confirmation one additional calretinin immunohistochemistry should be performed on histopathology sections. You have mentioned about ACA treatment what about other embolic sites like MCA and PCA? How did you treat this patient and mention the treatment response and follow up as it is essential in this case? Kindly make necessary corrections and resubmit it.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Unable to assess

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
