Reviewer’s report

Title: Interaction between COX-1 and COX-2 increases susceptibility to ischemic stroke in a Chinese population

Version: 1 Date: 24 Apr 2019

Reviewer: Ilona Kopyta

Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

Please overwrite this text when adding your comments to the authors.

The original paper describes the influence of COX gene mutations on susceptibility of ischemic stroke in Han Chinese population.

The material and method section is properly and clearly described, as well as the results. The literature is up to date and consistent with the aim and results of the study.

The paper, in my opinion, is a valuable and practical, deserves the publication
Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
