Reviewer’s report

Title: Blood-Brain Barrier Integrity of Stroke Patients Presenting in an Extended Time Window

Version: 0 Date: 01 Dec 2019

Reviewer: Richard Alan Rison

Reviewer's report:

The authors present an interesting study.

1. Why were different strength magnets used? Would this have affected the data in any way regarding BBB permeability?
2. Please explain more why there was so much variability in BBB disruption across the cohort.
3. Given individual patient variability do the authors feel that collateral flow could have accounted for some of the BBB disruption variability? What about patient disease states like diabetes?
4. Could the findings apply to "wake up" strokes?
5. How do you see these findings applying to the community?
6. What are your plans for future research on this topic?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Acceptable

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
