Reviewer’s report

Title: Prevalence of and Characteristics Associated with In-Hospital Mortality in a Ugandan Neurology Ward

Version: 0 Date: 14 Oct 2019

Reviewer: Satoru Sakuma

Reviewer's report:

Reviewer's comments: This paper presented the characteristics of in hospital mortality in a Ugandan Neurology ward. Title looks interesting. However, there are some problems in this manuscript.

1. The collected data are a little old. This study is epidemiological study. Recent papers which authors refer (Reference no.18, 21,24,30, and 34) show the current data. Authors should add the current data. This manuscript would be more convincing.

2. On page 17, line 24, Figure legends are insufficient. Only titles are listed. Legends were not found. Authors should describe the legends of Figure1A-1D, respectively.

Are the methods appropriate and well described?  
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?  
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?  
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?  
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English  
Please indicate the quality of language in the manuscript:
