Title: Maternal Safety of the Delayed-Release Doxylamine and Pyridoxine Combination for Nausea and Vomiting of Pregnancy; A Randomized Placebo Controlled Trial

Version: 3 Date: 23 September 2014

Reviewer: Ronna L Chan

Reviewer's report:

Comments to Authors:

This review pertains to the 3rd iteration of this manuscript in which the authors examined maternal safety of Diclegis in a randomized, double-blind clinical trial using intention to treat analysis.

Major Compulsory Revisions

NONE

Minor Essential Revisions

(1) Results, 3rd paragraph; Tables 3-5: Authors stated the term TEAEs (Treatment Emergent Adverse Events) was defined by the investigators. Please provide definition and/or parameters used for this classification.

(2) Tables 1-5: Must change drug name from Diclectin to Diclegis.

(3) Table 2: Please define ‘mild’, ‘moderate’, and ‘severe’ adverse events.

Discretionary Revisions

NONE

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
