Reviewer’s report

Title: Qualitative Website Analysis of information on Birth after Caesarean Section

Version: 2 Date: 18 May 2015

Reviewer: Hannah Dahlen

Reviewer’s report:

I feel this paper is fundamentally flawed due to the limited number of websites reviewed and dominance of highly reputable ones at that. I am not sure what at the end of this is achieved. For me it is the so what that is missing. Also missing is reference to other papers and literature about this issue that would have given the paper more depth.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
