Reviewer's report

Title: Knowledge and future preference of Chinese women in a major public hospital in Hong Kong after undergoing non-invasive prenatal testing for positive aneuploidy screening: a questionnaire survey

Version: 3  Date: 18 May 2015

Reviewer: Gwendolin Manegold-Brauer

Reviewer's report:

Minor essential revisions:

In the following there is a list of Language and minor errors, please correct as follows:

Line 26: ...differ depending on women's characteristics and sources of information.

Line 31: ...designed based on the rapid response,...

Line 42: but were not aware of the more complicated aspects...

Line 43: ...education or those who underwent NIPT...

Line 51: The Chinese women who underwent NIPT knew the limitations but did not understand the complicated aspects

Line 63: Please include citation on NIPT and reduction of invasive procedures by Manegold-Brauer G et al. (Swiss Med Wkly. 2014 Feb 4;144:w13915. doi: 10.4414/smw.2014.13915.

Line 80: preferences differ depending on their characteristics and sources of information...

Line 117: what does “gestation” mean here ? Do you mean Parity or do you mean gestational week?

Line 142: low risk by NIPT were confirmed

Line 178: 1 to 5 according to their characteristics....

Line 187 characteristics or different sources of information

Line 194: ...NIPT in special groups..

Line 208: Although Nullipara and...

Line 210: …than Multipara and unemployed women.

Line 215: part of the sentence not quite understandable: “besides no risk of miscarriage “

What do the authors want to say? Women were concerned with the costs and they knew that there was not risk of miscarriage ? Women were concerned with the cost although the knew that the advantage is that there is no risk of miscarriage ?
Please rewrite the sentence. 
Line 272: Replace fetal sexing by “determination of fetal sex”
Line 283: …but knew little about …
Line 284 …the more complicated aspects…
Line 285: more information by healthcare professionals is required… (omit giving)
Line 287: …wider indications, it is important to find ways to keep healthcare professionals updated so that they …. testing.
Line 290….which is worth further exploration…
Line 293….as the costs will likely go down in the future.
