Reviewer’s report

Title: Household Food Insecurity and Mental Distress among Pregnant Women in Southwestern Ethiopia: A cross sectional study design

Version: 3 Date: 16 March 2015

Reviewer: Barbara Piperata

Reviewer’s report:

The authors adequately addressed my major comments. The manuscript is significantly improved and speaks to a broader audience. The findings will be relevant to others with similar research interests in the interaction of mental health and food security. Introduction and discussion are significantly improved.

Minor essential revisions: editing of the manuscript by a native English speaker is strongly suggested to improve the communication of the research findings and their significance.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
